# SCORING

344 seconds : Time

7 : Average items per Bag

1 : Current Level

Bag Number	Number of Items	Weight
1	11	5.52
2	9	5.00
3	1	0.63
4	0	0
5	0	0
6	0	0

Just like your tires or your life...if your bag's out of balance things can get tough. Keep the weight difference between the bags below 2 pounds for the best score.

Remember - start with a "Non-Crushable" solid base, build walls with cans and boxes, the crushable on top. If you scored "0" on product placement, you must have had a "Crushable" on the bottom. Review the [Product Description sheet](#) and you can review Principles of bagging.

Use the bags wisely, try eight or more items per bag --- they can handle it.

Your times will get better with practice...so practice, practice, practice.
